

# **Children's Mental Health Services**

## **Mission/Vision Statement**

### **Mission**

The mission of Children's Mental Health Services is to advance a rich array of services delivered through an integrated, community-based, mental health System of Care that enables children and adolescents to achieve positive outcomes. These desired outcomes are the basis for the goals of the System of Care:

- ◇ Children and youth live at home or in home-like settings
- ◇ Children and youth stay out of trouble
- ◇ Children and youth are successful in school
- ◇ Children and youth are safe

### **Vision**

Children's Mental Health Services (CMHS) works with a broad constituency of stakeholders to build a community of families, neighbors, schools and child serving agencies, that fosters physically and mentally healthy children and adolescents, maximizes their potential in school and in the home, and prepares them to be productive and responsible adults.
